AITH KANPUR

Dr. Ambedkar Institute of Technology for Handicapped, Kanpur (AITH) is a leading Indian Institution offering its students a unique amalgamation of professional and academic excellence. Dr. Ambedkar Institute of Technology for Handicapped was established by Govt. of UP in 1997 under World Bank Project. The college imparts technical education to students through two courses: B. Tech and Diploma Programs. College has a lush green wifi campus with an area of 15 acres.

The B. Tech courses are affiliated to Dr. APJ Abdul Kalam Technical University (AKTU), Lucknow, and are approved by All India Council for Technical Education (AICTE) New Delhi. Institute is well equipped with state of art laboratories and workshops to fulfill the training needs of the students. The computer labs are equipped with latest personal computers and wide area network (WAN) facility. Institute maintains well residential facility for staff and students (in hostel) with 24-hour power backup and internet connectivity. Separate, on campus, hostels for boys and girls are provided. Round the clock security is provided in the campus.

DEPARTMENT OF BIOTECHNOLOGY

The department commenced its academic journey in the year 2008 with a vision to create an open platform in the area of Biotechnology through technical knowledge dissemination to the students. The curriculum is best suited for the present day needs of the industrial sector. The department has state of art research laboratories equipped with high end equipment's like Gas Chromatography, High Performance Liquid Chromatography, Fourier Transform Infra Red Spectroscopy, Microplate Reader, Fermenter. and many more futuristic equipment's used in the fields of Advanced and applied Microbiology, Bioremediation, Environment Biotechnology, Bioinformatics, and many others.

Students are encouraged to carry-out in-house projects, attend seminars, conferences and also to publish their research findings in reputed and indexed journals.. The department has well equipped laboratories for scholars to ensure the uninterrupted operation of research activities.

ACHIEVEMENTS

The students have won gold medal from Dr. APJ Abdul Kalam Technical University. Many students of the department have cleared competitive exams such as GATE, CSIR/DBT-NET/JRF, TIFR, IIT JAM and others to pursue their ambitions of obtaining higher education. Students have also secured top ranks in examinations like BCIL, SSC CGL, IBPS and many others. Our alumni are posted throughout the globe in reputed industries like Zydus Cadila, Cipla, Panacea, Adani Wilmar Limited, Biological E Limited and many others. The alumni of the department are working as scientists, engineers, and academicians in various organizations in India and abroad.

THE CONFERENCE

The National Conference on "**Environmental and Industrial Biotechnology**", NCEIB 2022, is to be organized by the Department of Biotechnology, AITH Kanpur, Uttar Pradesh. The purpose of this conference is to explore, disseminate and strengthen initiatives in new directions. The conference format will include oral, poster presentation sessions, and keynote speeches by the eminent experts. The conference has been planned such that the participants can have enough time to exchange their ideas with the experts and they can also explore the local sight scenes.

AIM OF THE CONFERENCE

The conference aims to bring together leading experts, academic scientists, researchers, scholars and students to discuss and exchange information on the latest progress and breakthroughs. The conference aims to establish a broad networking of the experts and scholars involved in outstanding research activities in the ever expanding field of Environmental and Industrial

Biotechnology platform will provide an opportunity to the participants to discuss the practical challenges encountered and solutions that can be adopted in the fields of Environmental and Industrial Biotechnology.

THEMES OF THE CONFERENCE

1. Biosensors
2. 3D Bioprinting
3. Biofuel & Renewable Energy
4. Environmental Biotechnology
5. Novel and Smart Biomaterials
6. Fermentation and Bioprocessing
7. Food and Nutritional Biotechnology
8. Biodegradable Polymers and Bioplastics
9. Artificial Intelligence in Environment and Industrial Biotechnology.
